WEBINAR

Rent, Replace, Repair —
Maximizing Water Treatment
System ROI

[ONDEMAND](#)

In this webinar, Evoqua will discuss the selection process and various factors which should be considered when determining whether to repair existing water treatment equipment, replace old equipment with new, or rent temporary water treatment equipment.

WEBINAR

Faster and safer projects with a
project-managed alternative
welding system

[ONDEMAND](#)

BHI Energy will discuss completed projects and the challenges and solutions addressed when dealing with alternative welding systems. Attendees will learn how the project-managed approach to critical path projects has saved tens of millions of dollars in turnaround costs, increased project quality, and optimized safety.

Honeywell BW Solo

Honeywell's new BW Solo is the company's latest next generation single gas detector. It helps companies reduce cost and keep workers protected. It offers one-button operation and is small, lightweight and easy to service. It provides high accuracy, lower costs and faster sensor response time for the gases you monitor most often.
