

PK Safety provides the people, planning, equipment, and technology needed to keep complex work moving safely. The team delivers safety attendants, technical rescue, monitoring, medical support, and other field services across maintenance work, turnarounds, and capital projects. Often in place before work begins, PK Safety builds rescue plans, supplies equipment, and brings trained support to demanding environments.

ONSITE SAFETY SERVICES

- Rescue Teams
- Safety Attendants
- Safety Professionals
- Safety Training
- Confined Space Monitoring System (WILMA™)
- Onsite Medical Services
- Safety Rental Equipment & Breathing Air
- Labor Services

Where Craftsmanship & Technology Meet *Ingenuity*

PK Companies is an integrated industrial services company that inspects, maintains, and improves the reliability of critical infrastructure. Across inspection, soft craft services, and safety, PK identifies issues, performs the work needed to address them, and supports safe execution from start to finish. PK combines skilled craftsmanship, innovative technology, and coordinated teamwork to reduce handoffs, improve visibility, and help customers operate smarter and safer every day.

With offices and shops strategically located throughout the Midwest, our three business units **PK Technology & Inspection**, **PK Industrial** and **PK Safety** come together to simplify execution and protect what matters most.

PK Technology & Inspection provides field-based inspection services that improve visibility into asset condition, support compliance, and inform maintenance decisions. The team combines experienced inspectors with practical technology for better reporting, clearer data, and faster action in the field. Rooted in inspection expertise rather than software alone, PK Technology & Inspection turns findings into practical next steps.

MECHANICAL INTEGRITY INSPECTION / API

- API 510/570/571/580
- API-936/982
- AWS CWI/QA/QC/SWI, API 577
- API 1169 Pipeline Inspections
- Vendor Surveillance

CONVENTIONAL NDE

- UT, MT, VT, PT
- PMI-XRF/OES/LIBS
- Radiography
 - DR/CR/RTR/Conventional
 - DR-Hard and Flex Panels
- Hardness & Ferrite Testing

ADVANCED NDE

- Phased Array (PAUT, TFM, TOFD, MSKIP, HTHA, Hydroform)
- Automated Ultrasonics (Corrosion Mapping/C-Scan)
- Guided Wave (Short- & Long-range GW)
- Tubular Eddy Current (ECT, RFT, NFT, & IRIS)
- Surface Eddy Current (SECT/PEC)
- Surface Eddy Current Array (Weld Testing)
- 3D Laser Scanning (Creaform & Siekowave)
- UT Shearwave
- Ground Penetrating Radar
- Drones/UAV
- Infrared Scanning

TANK INSPECTION

- In-Service and Out-of-Service Inspection
- API 653, NACE, API TES
- Repair Recommendations
- MFE/MFL Inspection
- Vacuum Box Testing
- 3D Laser Surveys
- Secondary Containment Surveys
- Tank Crawlers

FIREPROOFING & COATING (ONSHORE & OFFSHORE)

- NACE (I, II, III)
- Coating Corrosion Surveys
- Repair Process Management
- Fabric Maintenance Program Management

ROPE ACCESS

- Coatings
 - TSA Qualified
- Insulation
- Welding
- Mechanical
- All Inspection Methods

DATA MANAGEMENT

- Special Emphasis Programs to Include:
 - CUI/CUF/Soil to Air/CS Sulfidation/Touchpoint/Dead Legs
 - Flange Tracking—Flange RF Corrosion
 - Complete Turnaround Solution
 - Wall Charts, Equipment Status, IWR Logs, Reports, Remaining Inspections
 - Both Mechanical & Refractory
 - Data Integration
 - Flange & Blind Tracking
 - Data IDMS Clean-Up & Integration
 - IDMS Data Optimization
 - IDMS Gap Analysis
 - File Digitizing & Organization
 - MI Program Development & Program Sustainability (Run & Maintain)
 - Asset Validation (CMMS)
 - AutoCAD

OTHER SERVICES ENGINEERING

- Process Safety and Operating Manuals
- Management of Change
- Fitness for Service (Level 1&2)
- Mechanical Engineering
- Fixed, Rotating, Electrical
- MI Implementation
- Damage Mechanism Assessments
- RBI/Corrosion Loop Studies
- Reliability and PSM Audits
- AutoCAD and PCMS

ASNT III SERVICES TRAINING

- API-571 & 580 Classroom Training
- SIFE Classroom Training

PLANNING/SCHEDULING/PROJECT CONTROL

- Field and Primavera Planners
- Primavera Scheduling
- Cost Control Personnel
- Field execution Management & Supervision
- Turnaround Planners

PK Industrial provides scaffolding, insulation, coatings, fireproofing, and related field execution services. As the longest-standing part of the PK business, it is built on skilled craftsmanship, practical problem-solving, and executing work correctly. Backed by experienced crews and supported by technology where it adds value, PK Industrial delivers reliable work that helps maintain critical infrastructure.

COMMERCIAL & INDUSTRIAL (ONSITE & IN-SHOP)

- Scaffolding
- Protective Coatings & Linings
- Insulation
- Fireproofing
- Concrete Coatings
- Abatement Services
- Heat Tracing
- Industrial Digital Services
