

BUILDING FOR REAL LIFE SINCE 1901

For more than 125 years, we've helped manufacturers solve complex fabrication challenges with critical process equipment engineered for performance, reliability, and longevity.

Today, that legacy continues under a new name.

**Enerfab Process Solutions is now
Bishopric Industries.**

While our name has evolved, everything our customers value remains the same:

- Our people
- Our fabrication facilities
- Our commitment to quality
- Our engineering expertise
- Our customer-first approach

FORMERLY
ENERFAB PROCESS SOLUTIONS

Built for the World's Most Demanding Industries

Bishopric Industries fabricates large-scale tanks, pressure vessels, and process equipment built for performance, durability, and code compliance, including:

- Thermal Energy Storage & Data Center Tanks
- High-Alloy & Corrosion-Resistant Vessels
- Half-Pipe Jacketed Vessels
- Fermentation Vessels
- Field-Optimized Fabrication Solutions
- Columns & Towers
- Evaporators & Crystallizers
- Industrial Storage Tanks
- Tubular Reactors & Heat Exchangers

Complex process equipment demands precise, repeatable welding, especially when working with exotic alloys and materials. We offer expertise in carbon steel, stainless steel, duplex, super duplex, nickel alloys, and all clad combinations, as well as other exotic and high temperature materials.

Serving the Industries Shaping Tomorrow

Aerospace

Agriscience/
Fertilizer

Chemical

Data Centers

Food & Beverage

Mining/Metals

Oil & Gas/Refining

Pharmaceutical

Whatever You're Creating...we're creating the equipment that makes it possible.
